**WORLD ELDER ABUSE
AWARENESS DAY**

Help us commemorate
“World Elder Abuse Awareness Day”
on June 15, 2018

Show the world you care by wearing something purple!

Conference Summary

The physical and emotional changes that adults face as they age can result in functional, psychological and spiritual challenges. The complexity of these issues is confounded when faced with mental illness and/or developmental disabilities.

This conference will attempt to tear down the silos in which aging, mental illness and developmental disabilities reside in order to provide tools and guidance to professionals who encounter families wherein these challenges exist.

Conference Objectives

This conference is designed to provide participants with an opportunity to:

- A.** Increase knowledge re: advance planning and assisting family members to access private and public resources to support persons with mental illness and developmental disabilities and their families;
- B.** Increase skills to assess how age affects mental illness and developmental disabilities, and conversely, the impact of these determinants on aging;
- C.** Increase understanding of the importance of accurately identifying the legal client when working with individuals with special needs and their families.
